MIG/MAG TORCH PARTS | TIG TORCH PARTS | PLASMA CUTTING CONSUMABLES | OEM SUPPLY

Build one RFQ across six product families

Use product names, current-part references, photos, drawings and quantities to keep every requested line traceable. Exact fit and unconfirmed technical details are reviewed before quotation.

MIG/MAG Torch Parts

Contact tips, gas nozzles, diffusers, liners and torch-front replacement parts.

TIG Torch Parts

Ceramic cups, collets, collet bodies, gas lenses and related torch components.

Plasma Cutting Consumables

Electrodes, nozzles, swirl rings, shields and consumable-stack components.

Welding Consumables

Welding wires, electrodes, holders and general industrial consumable supply.

Welding Machines

MIG, TIG, MMA and plasma cutting equipment for quotation-based sourcing.

Welding Accessories

Cables, connectors, clamps, holders and workshop replacement accessories.

MIG/MAG Contact Tips

TIG Ceramic Cups

Plasma Electrodes

Welding Accessories

From product list to reviewed quotation

A structured inquiry helps both sides separate confirmed requirements from details that still need sample, drawing or model review.

01**Send product list**

Share references, quantities, destination and available evidence.

02**Confirm details**

Review fit, dimensions, packing and any open technical fields.

03**Review quotation**

Check items, MOQ, lead time, payment basis and delivery plan.

04**Plan orders**

Keep approved references and packaging details for repeat purchasing.

OEM and private label review

Available services can include product customization, logo printing, private label packaging, carton design and model customization. Send artwork, quantities, packaging format and product references for feasibility and MOQ review.

LOGO | PACKAGING | PRIVATE LABEL | CARTON | MODEL CUSTOMIZATION

Commercial reference for RFQ planning

MAIN PORT

Tianjin Xingang Port / Tianjin Port, China

PAYMENT

T/T preferred: 30% deposit, 70% balance before shipment

MOQ

Small trial orders accepted; OEM MOQ depends on product and packaging

LEAD TIME

Usually 7-20 working days for regular orders

Prepare a traceable distributor RFQ

The following information helps the sales team review product selection, packaging and delivery options without guessing missing specifications.

1

Product family, product name, SKU or current supplier reference

2

Torch or machine model and compatible part reference, when available

3

Size, thread, material or technical requirement supported by records

4

Quantity required for each line and expected repeat order volume

5

Current-part photos, drawings, labels or sample details

6

Standard packing, logo, barcode, private label or carton requirements

7

Destination country, requested delivery schedule and shipping preference
